

CARLY GALLAGHER

Full Stack Developer • Software QA • UX/UI

San Diego, CA • (707) 880-9471 • carlygallagher22@gmail.com • carlygallagherdev.netlify.app • github.com/CarlyGallagher

Full Stack Developer with a strong eye for quality and a background in both building and testing production web applications. Experienced with React, TypeScript, Node.js, PostgreSQL, and MongoDB. Practiced in manual QA including bug identification, edge case testing, and multi-state UI verification. UC Riverside Full Stack certified. Passionate about clean code, intuitive UX, and shipping software that works.

WORK EXPERIENCE

Maganda Media Management • Full Stack Developer Remote | 2025 – Present

- Develop and deploy scalable web applications using Wix Corvid (Velo); design intuitive UIs that improve user experience and drive higher engagement
- Consult with clients on project scoping, pricing, timelines, and technology recommendations to guide build decisions
- Translate client business requirements into actionable development proposals and deliver polished, functional solutions

PROJECTS

Tour Planner — tour.raspberrymanagement.com

Full-stack tour management app for independent musicians built with React, TypeScript, Material UI, and a Supabase PostgreSQL backend with Row Level Security and role-based access. Features a live dashboard, interactive color-coded timeline, and real-time data via TanStack Query. Practiced manual QA through bug identification, timezone edge case testing, and multi-state UI verification.

Saint Misty — Official Music Site — saintmisty.com

Full-stack music platform built with React, Node.js, Express, and MongoDB. Custom music player with Web Audio API real-time equalizer visualization, JWT-authenticated admin dashboard for blog and media management, and full accessibility across all screen sizes and visual capabilities.

REACT Movie List — favoritemoviesreact.netlify.app

Responsive React app with public API integration, search functionality, favorites curation, and persistent state via React Hooks and localStorage.
